*Although it's never publicly admitted, multiple sources allege Murdoch has Jewish ancestry on his maternal line. He's also a devoted Zionist who's been honored by the Simon Wiesenthal Center, the Anti-Defamation League and the American Jewish Committee. In the Algemeiner Journal's annual list of the top 10 non-Jews that are positively influencing the Jewish future, Murdoch has consistently ranked near the top.

If roughly 2% of Americans are Jews, is it odd that a newspaper's Chairman & Vice Chairman, Publisher & Deputy Publisher, Managing Editor & Deputy Managing Editor, President & CEO's spouse, Chief Operating Officer, and majority of its Directors and Exec. Committee are Jewish? What if its D.C., L.A., London, Paris, Rome, Berlin, Central/East Europe, South Asia, and Australia Bureau Chiefs, its Editor-in-Chief of its Editorial Page and Global, Magazine, and Business Editions, and its Chief National, International, Political, Domestic Affairs, Military, and White House Correspondents—all but one "Chief" Correspondent—are also Jewish?

If Jews represent just 2% of the U.S. population, would it be odd for a media organization (whose parent company has a Jewish Chairman & CEO) to have five Jewish Chairmen and five Jewish Presidents leading each of its five divisions (News, Television, Cable, Sports, and Film), as well as a National Political Director, Chief Legal Correspondent, Chief Foreign Correspondent, and a majority of Executive Producers and Hosts who are also Jewish?

It's almost as if...

About 20% of US taxpayer funded NPR's personnel are of Jewish descent.

As merely 2% of the United States population, why are dual American & Israeli Jewish citizens allowed to represent about 1/5 of the US taxpayer subsidized public radio station?
